

FOR IMMEDIATE RELEASE

**VIDIENT SYSTEMS AND TTSI ENTER AGREEMENT FOR MARKETING, SALES,
AND DISTRIBUTION OF SMARTCATCH SOFTWARE IN THE U.S.**

***Video Surveillance Leader Further Expands its Security Sales Channel
with Addition of Texas Technical Services, Inc. (TTSI)***

SUNNYVALE, Calif. July 19, 2005 -- Vidient Systems, Inc., a developer of behavior recognition software that makes video surveillance (CCTV) systems more accurate and cost effective, today announced a partnership in which Texas Technical Services, Inc., (TTSI), will market, sell, and distribute Vidient SmartCatch 2.1 video surveillance software in the U.S. and incorporate it into a broad range of its security offerings.

Based on advanced behavior recognition algorithms, SmartCatch 2.1 is the next generation of intelligent video software providing a platform that delivers the industries highest level of accuracy in detecting security violations and integrating with a wide range of other sensor systems such as access control for full situational awareness. SmartCatch also provides intelligent response management by alerting security personnel of violations in real time including relevant incident data like location and time while also providing instant video replay. The system can escalate alerts to additional personnel based on pre-determined policies.

“We looked at a wide range of intelligent video products and Vidient SmartCatch had the most advanced algorithms,” said D.J. Ramirez, VP of operations for TTSI. “By partnering with top-tier providers such as Vidient, our customers know that they have access to the best and broadest base of security surveillance solutions available in the industry today.”

Servicing Houston and the surrounding region, TTSI works with medium to large companies in the petrochemical, aviation, transportation and education industries. The company joins a growing roster of Vidient marketing affiliates and distribution partners, including NEC and Sony, as the company expands its channel activities to accelerate

the global marketing and sales of its industry leading solutions to additional transportation hubs and corporate facilities

“By partnering with a quality systems integrator such as TTSI, we can expand the deployment of SmartCatch into new geographies and vertical markets including petrochemical, manufacturing, and education,” said Gary Resnick, Vidient vice president of Security Channel Development. “TTSI has an excellent reputation and a successful track record working directly with large manufacturing companies and institutions. With SmartCatch at its core, we’re confident this partnership will result in delivering a whole new level of accuracy and effectiveness in CCTV monitoring and surveillance solutions to south Texas customers.”

SmartCatch is currently used in major international airports including San Francisco International Airport, San Diego International Airport and Salt Lake City International Airport.

In addition to TTSI, SmartCatch 2.1 is available immediately through Vidient Systems, Inc., Warren Associates, and NEC Solutions America, Inc. (NECSAM).
